## PART IV.

### Official Papers.

No. D. 414, DATED BANGALORE, 4TH MAY 1892.

ORDER.—The work of granting loans for Irrigation wells in the Tumkur and

		Rs.
Tumkur District	...	55,000
Chitaldroog do	...	80,000
Kolar do	...	1,00,000
Total Rs.		2,35,000

Chitaldroog Districts, entrusted to Mr. B. G. Krishnaiengar, Assistant Commissioner, has been concluded, and it is understood that the work in the Kolar District is also approaching completion. Rupees 2,35,000, allotted by Government for the purpose as noted in the margin, have, for the most part, been sanctioned by the Special Officers by way of loans,

and it is believed that more loans on any large scale are not needed during the present season in the Districts named above. There however now remains the proper supervision of the progress made in the construction of the wells and payment of the second instalments of the loans. For this purpose in all the three Districts for which advances have been sanctioned, for the granting of new advances if any in the Bangalore District and generally for the disposal of matters connected with Irrigation wells in the whole Province, the Government have decided upon continuing Mr. B. G. Krishnaiengar on the same duty for some months more. He will draw the same allowances as hitherto and will have his Head-quarters at Bangalore, making occasional tours of inspection in the Taluks where Irrigation well works are in progress.

2. Mr. Krishnaiengar is requested to report himself at once to the Honorable P. Chentsal Rao Pantalu Garu, C. I. E., Councillor to His Highness the Maharaja, who will give him instructions as to the work to be done by him in future in connection with Irrigation wells.

3. Mr. Nanjundaiya, (Sub-Judge on Irrigation well duty in the Kolar District) must close his work as quickly as possible and resume charge of the Subordinate Judge's Court at Bangalore.

## READ :—

Letter No. 1107, dated 25th April 1892, from the Deputy Commissioner, Tumkur District,		reporting that deaths, as noted in the margin, occurred during the recent outbreak of cholera in the Turnvekere Sub-Taluk, and that medicines were duly administered and all sanitary precautions taken to arrest the progress of the disease; also that 29 persons are suffering from the disease in the last 4 of the villages named in the margin.
	Number of deaths.

No. D. 415, DATED BANGALORE, 4TH MAY 1892.

ORDER THEREON.—Recorded.

## READ :—

Docket No. 97, dated 28th April 1892, from the Deputy Commissioner, Mysore District, requesting that a further sum of Rs. 2,000 be placed at his disposal for the relief of Weavers and of the Kunchigars of Nagamangala, which latter class is also reported to be in need of help.

No. D. 419, DATED BANGALORE, 4TH MAY 1892.

ORDER THEREON.—A further sum of Rs. 2,000 is now placed at the disposal of the Deputy Commissioner, Mysore District, for the relief of Weavers.

The reasons which exist for establishing a special system of relief for the benefit of Weavers do not apply to Kunchigars, and the Deputy Commissioner is requested to report at once the grounds upon which he recommends special relief by way of advances to the Kunchigars of Nagamangala.

## READ :—

Docket No. 727—686, dated the 27th April 1892, from the Deputy Commissioner, Chitaldroog District, submitting for sanction estimates for the works named in the margin which have been started as Relief Works in the Challakere Taluk.		
1. Improving Banjigere Tank	...	Rs. 548
2. Do Bharmasagar "	...	582
3. Do Belagere "	...	576
Total.....	1,706	

No. D. 422, DATED BANGALORE, 4TH MAY 1892.

ORDER THEREON.—The estimates received with the above, aggregating Rs. 1,706, are sanctioned.

## READ :—

Diary (of which an Abstract is given below) of Mr. B. G. Krishnaiengar, Assistant Commissioner, on Special duty, for the fortnight ending 15th April 1892, received with docket No. 1081, dated 20th idem, from the Deputy Commissioner, Tumkur District.

## ABSTRACT.

The number and amount of loans sanctioned during the fortnight were as follows :—

Taluk.					No. of loans.	Amount sanctioned.	Amount advanced on account of 1st instalment.

Gubbi ... ..	8	2,200
Total.....	262	50,910

Out of Rs. 1,35,000 granted for both the Chitaldroog and Tumkur Districts, Rs. 15,245 remained unexpended. This, it is stated, will be spent in complying with a few fresh applications pending investigation before the Amildars.

No. D. 423, DATED BANGALORE, 4TH MAY 1892.

ORDER.—Recorded.

READ:—

Letter No. 1043, dated 12th April 1892, from the Deputy Commissioner, Tumkur District, submitting a petition from one Prabhaya of Kolala village in the Tumkur Taluk, appealing against the order passed by Mr. B. G. Krishnaiengar, Assistant Commissioner on Special duty, declining to sanction a loan for constructing an Irrigation Well in the petitioner's garden.

Letter No. D. 365, dated 22nd April 1892, to Mr. B. G. Krishnaiengar, calling for a report as to the circumstances under which he refused to grant the loan applied for by the petitioner.

Letter No. 111, dated 25th April 1892, from Mr. B. G. Krishnaiengar, reporting that he declined to sanction the loans because the site of the proposed well was too close to a nullah and because, in his opinion, the well did not contain an unfailing spring.

No. D. 427, DATED BANGALORE, 6TH MAY 1892.

ORDER THEREON.—Under the circumstances explained by Mr. B. G. Krishnaiengar, the loan applied for cannot be sanctioned. The petitioner should be informed accordingly.

2. With reference to the queries put by the Deputy Commissioner, whether he can entertain appeals from the decisions of the Special Officer appointed to grant loans for Irrigation Wells and whether he can, under Section 217 of the Mysore Land Revenue Code, call for records of the proceedings of such Special Officer, it is observed that the Deputy Commissioner has certainly the power to call for records in such cases but the granting of loans for Irrigation Wells being a mere concession of the Government made with the view of helping rayats and other land-holders, they cannot claim the concession as a matter of right. The Deputy Commissioner can always keep himself informed as to the wants of the people of his District in this direction and himself grant loans even in cases in which the Special Officer may have refused them, if any special circumstances render such a course necessary. It is not intended that the formalities involved in the entertaining and disposal of revenue appeals should be applied to these loans.

READ:—

- (1) Letter Camp No. 4, dated 13th April 1892, from the Deputy Commissioner, Kolar District.
- (2) Letter No. 396—89, dated 24th April 1892, from the Deputy Commissioner, Kolar District, enclosing copy of letter No. 291, dated 16th idem, from the Sub-Division Officer, Chikballapur Sub-Division.

- (3) Letter No. 709-669, dated 21st April 1892, from the Deputy Commissioner, Chitaldroog District.

No. D. 428, DATED BANGALORE, 7TH MAY 1892.

ORDER THEREON.—In the letters cited above; orders are solicited as to whether the remission of half assessment on rice lands for 1891-92, ordered in Proceedings No. D. 298, dated 2nd April 1892, can be granted in the cases hereunder described. The orders of Government upon each such case are entered against it below :—

I. Cases referred by the Deputy Commissioner of Kolar—

- (1.) Whether lands classed as garden, but on which only wet crops are being raised are entitled to the remission if lying fallow.

ORDER.—This question probably refers to lands classed as Bagayet, because of being irrigated by both flow and lift. On such lands, crops, *as a rule*, have been raised during the past season and therefore no general order for remission can be issued in regard to them. But the Deputy Commissioner may recommend remission in individual cases, of which, it is believed, there cannot be many in a Taluk.

- (2.) Whether lands which depend for water-supply on both the tank and a well are entitled to the concession when lying waste.

ORDER.—The order passed above disposes of this question.

- (3.) Whether wet lands on which dry crops have been raised are entitled to the benefit of the remission.

ORDER.—Raiyats, who cultivated dry crop on tank irrigated lands, must have realized very good profits owing to the high prices which prevailed and are not therefore in need of help by way of a remission. Nevertheless, in order to encourage the cultivation of dry crops on wet lands as much as possible in bad seasons like the past one, the Government will extend the benefit of the remission of half the wet assessment to rice lands cultivated in whole or in part with dry crops *owing to absence or insufficiency of tank water for the usual wet cultivation*, charging only the average dry assessment on the portion from which a dry crop may have been actually taken by using tank water to irrigate for such dry crop. The actual remission in this case of use of tank water for dry cultivation will therefore be the difference, if any, between the remittable half of the wet assessment on the entire land and the dry assessment on the part which has yielded a dry crop. It should however be understood that no dry assessment should thus be levied where the attempted dry cultivation failed to yield a crop or where dry crop was raised, not with the aid of tank water, but merely with the help of the moisture in the land or of rain or by means of wells sunk by the raiyat for the purpose.

- (4.) Whether the holder of wet lands who, on account of the present drought, has sunk a well and has raised some fast growing crop on the whole survey number, or only a part of it is to be granted remission.

ORDER.—This has been disposed of by the order on the 3rd question.

- (5.) Whether the concession is to be denied in cases where only a portion of the survey number is cultivated with wet or dry crops.

ORDER.—The case, so far as it relates to the cultivation of a portion of a survey number with dry crops, has been disposed of by the order on question (3). Where wet crop was raised on a portion of a field, the concession in question may be granted with reference to the portion which lay waste.

II. Questions submitted by the Sub-Division Officer, Chikballapur.

- (1.) Whether lands under tanks which are classed as "Bagayet," but which from time immemorial have only been cultivated with rice and which have, equally with lands classed as wet lain fallow owing to want of water in the tanks are to get the benefit of the remission.

**ORDER.**—This is the same as question No. 1 referred to by the Deputy Commissioner of Kolar.

- (2.) Whether lands classified as "Nalla" lands, but the reputed sources of water-supply for which are streams which, last year, were as dry as the tanks, *e. g.*, the Kusavati, Chitravati, &c., are entitled to the concession.

**ORDER.**—No general order for remission can be issued in such cases, but the Deputy Commissioner may recommend individual cases, of either particular lands or particular streams, for remission.

In the case of lands irrigated by the Kusavati and Chitravati, a permanent reduction of assessment would seem to be necessary if the Bhairsagar and Ramasamudra tanks have permanently reduced the water-supply of such lands. This question may be brought forward hereafter in due course. In the mean time, the order remitting half the wet assessment may be applied to these lands as a special case.

- (2.) Whether the local cess on the half of the assessment which is to be remitted, being an appendage of the same, should not also be remitted.

**ORDER.**—It should be remitted.

### III. Question submitted by the Deputy Commissioner, Chitaldroog—

Whether wet lands under tanks which have yielded only a dry crop, not raised by means of irrigation are entitled to the concession.

**ORDER.**—This has been answered in the order recorded with reference to the question 3 submitted by the Deputy Commissioner, Kolar District.

### READ:—

The following report by Mr. C. Raghavacharlu, General Assistant Commissioner, on the condition of the Closepet Taluk, received with docket No. 32, dated 2nd May 1892, from the Deputy Commissioner of Bangalore:—

**STATE OF CROPS STANDING.**—Sugar-cane, mulberry and a few vegetables are in good condition. In Closepet Kasaba one raiyat has raised a crop of ragi by lift irrigation. The extent is less than an acre.

**SUPPLY OF FOOD GRAINS.**—It may be safely stated that the supply is abundant. The stacks of ragi straw which I saw are much larger than in the Devanhalli or even Nelamangala Taluks. The raiyats have a cheerful appearance and in the villages themselves there is nothing to indicate distress. The markets are well supplied. I was not present in any of the Santés but I was informed that trade was brisk. There is a large population of Muhammadan ghosha women in Channapatna and they find their livelihood by pounding paddy. For this purpose paddy is imported from Seringapatam and other Cauvery villages and rice is exported from Channapatna even so far as Bangalore. This occupation is as brisk this year as ever.

**WATER-SUPPLY.**—Quite sufficient after the rains both for men and cattle. There were two good rains. On the 9th and 10th 1 inch and 7 cents fell and on the 21st and 22nd it was 1 inch and 60 cents. The second rain brought water to most tanks. There are 16 Public Works Department and 50 Revenue Department tanks in the Taluk, omitting small kattes. The Honganur, Virupakshipur, Sulur and Kodampalli tanks received two to three months' supply of water. Only about 20 per cent of the total number of tanks have received no water. The new anikat at Abbur was allowed to feed the Mallur and Pattu tanks, each of which received thereby a two months' supply. The rain was general. The small cattle ponds are all full. In wells there has been no marked rise of water yet.

**FODDER FOR CATTLE.**—This Taluk never suffered severely in this respect. The rain of the 9th and 10th made the grass in all the jungles to sprout. The grass is now just tall enough for cattle to nibble. In a week more it will be mature and nutritious. Cattle are in good condition. Ragi straw is largely purchased at Bidadi for consumption in Bangalore.

**DEMAND FOR WORK.**—The raiyats are all busy ploughing. About 25 per cent of the land has been already ploughed. In a few south-western villages, they propose sowing sesamum and jola. The rest of the ploughing is to prepare the land for ragi. This operation is done soon after the harvest if the land allows it; but last year the land was too dry. The one or two works started for relief attract no laborers.

The general condition of the Taluk is satisfactory. Even without further rain for more than a month, water and fodder can be procured. Agricultural operations will not be impeded as no sowing is yet made. There was an isolated case of cholera in Channapatna, imported from Melkote. The rain which fell seems to have suppressed the disease at once.

No. D. 429, DATED BANGALORE, 8TH MAY 1892.

ORDER THEREON.—Recorded.

READ:—

The following report on the condition of the Kadur District for the fortnight ending 30th April 1892, received with docket No. 7, dated 4th May 1892, from the Deputy Commissioner of Kadur:—

**STATE OF CROPS.**—The few standing crops, viz., paddy (kode) and sugar-cane are in good condition.

The maize plants in the bed of the Iswarahalli Tank are in fair condition.

**SUPPLY OF FOOD GRAINS.**—The markets were well supplied with rice and ragi, which are the chief food grains.

**SUPPLY OF WATER.**—Fair in all parts. Well works sanctioned from District Funds are in progress.

The recent rains have nearly filled the kattes in the Maidan Taluks, and at present there is about 2 months' supply.

**FODDER FOR CATTLE.**—Prospects good throughout the District, and owing to recent rains, grass is growing rapidly.

RISE AND FALL OF FOOD GRAINS.—Grain.			Present fortnight.	Past fortnight.
Rice	...	...	8 to 12	7 to 12
Ragi	...	...	16 to 22	16 to 22
Gram	...	...	11 to 13	12 to 15

**DEMAND FOR LABOR.**—The raiyats are engaged in ploughing and sowing operations, and there is no demand for labor.

**GENERAL CONDITION OF THE DISTRICT.**—On the whole good. No necessity was found for starting village relief works.

Public health is generally good. Small-pox continues to prevail in parts of Mudgere, Chikmagalur and Koppa Taluks.

No. D. 430, DATED BANGALORE, 8TH MAY 1892.

ORDER THEREON.—Recorded.

READ:—

Letter No. 734—693, dated 29th April 1892, from the Deputy Commissioner of Chitaldroog, reporting that, from the 1st February up to 31st March 1892, 40 new Saguvali Kattés were constructed and 67 old ones repaired in his District in addition to the 9 kattés newly constructed and one repaired, up to the end of January 1892.

No. D. 431, DATED BANGALORE, 8TH MAY 1892.

ORDER THEREON.—Recorded.

READ:—

Docket No. 53, dated 28th ultimo, from the Senior Surgeon and Sanitary Commissioner, Mysore Government, forwarding extract from his Office Memo to the effect that it has never been the custom in any Hospital in the Province to refuse food and shelter to children of tender

years when one or both of their parents may be in Hospital under treatment and they have no body else to take care of them, and stating that the Assistant Surgeon, Kolar, has been warned against a recurrence of the conduct noticed in Proceedings No. D. 312, dated 5th ultimo.

No. D. 432, DATED BANGALORE, 8TH MAY 1892.

ORDER THEREON.—Recorded.

READ :—

The following report on the condition of the Tumkur District for the fortnight ending 15th April 1892, received with docket No. 1118, dated 27th April 1892, from the Deputy Commissioner of Tumkur :—

**HARVEST.**—Jola in some parts of Sira and Pavagada Taluks, paddy under Tarur tank in the Tumkur Taluk, Jodi Timlapur, Sujikal and Devikere tanks in the Huliya Sub-Taluk and Kandikere tank in the Chiknayakanhalli Taluk, and sosi ragi and wheat in some parts of Sira Taluk were harvested. Bengal-grass in some of the tank beds was also harvested, while the same in most of the tank beds was submerged during the recent rains.

**STANDING CROPS.**—Are in fair condition.

**FOOD GRAINS.**—Prices remain stationary and markets continue to be well supplied.

**FODDER.**—Scarcity of fodder is much felt.

**WATER.**—From the rain-fall during the fortnight, many tanks received some supply of water and thus want of water is much reduced. Besides the many fresh water wells already sunk and being sunk at Government cost are proving very useful.

**DEMAND FOR LABOR.**—At the beginning of the fortnight, people in large numbers were resorting to the Relief Works, but owing to the showers that fell since, the raiyats have begun tilling their fields and consequently the numbers on the Relief Works have largely diminished, and in some cases there is none on the works.

**GENERAL CONDITION.**—Cholera appeared in some of the villages of the Kunigal Taluk, and the Turuvekere Sub-Taluk. There were some deaths. It has now abated, but some are suffering in 4 villages of the latter Taluk. The days are very warm.

READ ALSO :—

The following report on the condition of the Maddagiri, Sira and Pavagada Taluks, submitted by the General Assistant Commissioner, Tumkur District, for the same period :—

**HARVEST.**—Has been completed in all places excepting in Pavagada, where it might take a fortnight more. The cholam crop grown in the tank beds of the Maddagiri Taluk is being reaped in many places. The yield may be estimated at from 4 annas to 8 annas in the average. In an experiment conducted by me in the case of the Bijwara tank bed, I found that the yield of cholam from one acre of land was 12 pallas or 1,200 seers; while the straw weighed 40 pounds. In Maddagiri Taluk alone, 44 tank beds containing an area of 1,144 acres has been cultivated principally with cholam.

**STANDING CROPS.**—Vaisakh paddy and sosi ragi crops are in a moderate condition. Those in the Maddagiri Taluk are thriving.

**CULTIVATION.**—There has been some rain in all the Taluks; some tanks received supply of water for periods ranging from a fortnight to two months. In a few places, sowing operations have already commenced.

**PRICES.**—There has been no change in the price of food grains. Rice sold from 7 to 8 seers and ragi from 18 to 20 seers a rupee in the Taluks comprised in this Range.

**FODDER.**—Wherever there was an average cholam crop, there is fodder sufficient to last for 3 or 4 months more. Generally speaking, fodder is procurable with difficulty.

**GENERAL CONDITION OF PEOPLE.**—Cooly classes are well off. Private works in addition to Government Public Works Department and Relief Works afford ample means of livelihood to laborers. Excepting in the Maddagiri Taluk, Relief Works have been progressing in all other Taluks, greatest progress being in the affected Taluk of Sira, where 3rd of the total estimated amount has already been spent.

No. D. 433, DATED BANGALORE, 8TH MAY 1892.

ORDER THEREON.—Recorded.

L. ANANTASWAMI RAO,

*Under-Secretary.*
